

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office AUG 11 1970

Returned to applicant for correction

Corrected application filed

Map filed AUG 11 1970

The applicant Fairfield Ranches
of Route 2, Box 165, Gardnerville, County of
State of Nevada 89401, hereby make s. application for permission to appropriate the public
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.) A Copartnership of Joseph T.
Banner, Frank C. Boxler and Ron Kincade.

1. The source of the proposed appropriation is Underground
Name of stream, lake or other source.
2. The amount of water applied for is 6.0 c.f.s. second-foot
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet acre-feet
3. The water to be used for Irrigation and domestic
Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
 - (a) Irrigation (state number of acres to be irrigated) 600 acres.
 - (b) Stockwater (state number and kinds of animals to be watered)
 - (c) Other use (describe fully under "No. 11. Remarks")
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: In the NW $\frac{1}{4}$ NW $\frac{1}{4}$ sec. 24,
T. 10N., R. 22 E., M.D.B.&M., from which the northwest corner of
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
said section 24 bears N. 30°14'10" W., 770.00 feet.
it should be stated.
6. Place of use SW $\frac{1}{4}$ section 13, SE $\frac{1}{4}$ section 14, NE $\frac{1}{4}$ section 23, and NW $\frac{1}{4}$
Describe by legal subdivision, if on unsurveyed land it should be so stated.
section 24, T. 10 N., R. 22 E., M.D.B.&M.
7. Use will begin about January 1st and end about December 31st, of each year.
Month Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans
and specifications of your diversion or storage works.) well, pump and ditches

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$10,000.00
10. Estimated time required to construct works.....2 years
11. Estimated time required to complete the application to beneficial use.....5 years
12. Remarks.....

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will depend upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other measuring device must be installed and measurements of water use kept. The well shall be equipped with a two-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. In the event the well from which the proposed diversion is to be made is reamed or otherwise enlarged, or re-drilled, no perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface. Since the proposed point of diversion lies within lands subject to inundation in the event Hoyer Canyon Dam is built, the permittee shall take all necessary precautions, subject to the approval of the State Engineer, to prevent drainage of the surface water impounded into the groundwater reservoir. The state retains the right to regulate the use of the water herein granted at all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.0 cubic feet per second but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before.....October 15, 1971

Proof of commencement of work shall be filed before.....November 15, 1971

Work must be prosecuted with reasonable diligence and be completed on or before.....October 15, 1972

Proof of completion of work shall be filed before.....November 15, 1972

Application of water to beneficial use shall be made on or before.....October 15, 1975

Proof of the application of water to beneficial use shall be filed on or before.....November 15, 1975

Map in support of proof of beneficial use shall be filed on or before.....November 15, 1975

Commencement of work filed.....OCT 28 1971
Completion of work filed.....
Proof of beneficial use filed.....
